Dr. Leo Meyer
Donner Laboratory
University of California
Berkeley (4) California

Dear Leo:

I got your letter and am glad you're having an interesting time in California. Will Siri's suggestion about doing hydration studies in the Marshallese, using tritium-labeled water, sounds like a good one. I suppose we could try it on the unexposed people. Will talk it over further with you when I see you. I am enclosing copies of the 3, 4, and 5 and 6-year Marshallese reports, as you requested.

My best regards to you and Lillian and also the others at Donner Laboratory.

Sincerely yours,

Bob
